PUBLIC COMMENTS: None

Director Petersen updated the board on the Bennett cabin project. Materials have been ordered, and work on the structure should begin early July.

More discussion was held on using the My County Parks website administered by Iowa County Conservation Board System, for online payment of campsites and payment and reservation of the new Bennett cabin. Moeller moved to use the My County Parks system. Rouse seconded. Motion Carried.

Director Petersen updated the board on the STEM Extern program. The program employs teachers on summer break to work in other jobs to gain different experiences to bring back to their classroom. Adam Brown, a teacher from the Calamus Wheatland school district, applied to work with CCCB. Since the program is fully funded through the state it will not cost the CCCB any funds. Director Petersen said it will give us an extra hand on some projects we have not had staff for in the past. One project we would like to do is a Rusty Patch Bumblebee survey on some of our areas.

EE update from Subert and Wilbourne – Fishing Derby was well attended; summer camps will be starting.

Maintenance update from Brown – New Campsites at Massillon will be open for Memorial Day weekend.

Moeller moved to adjourn Rouse seconded motion approved at 6:33pm.

Next meeting July 08 13th, 2026 at Rochester Park.
